Are you working on a hot new videogame title? Do you want to preview it at Sandbox Symposium, the first ACM videogame symposium which will be held at SIGGRAPH 2006?

Then submit a two-minute video preview of your title at <http://www.sandboxsymposium.org/callforpapers.html>.

Preview should be in MPEG format at either NTSC or HDTV resolution. The preview must show game play but may also include cut scenes.

The best previews will be screened for the symposium audience. Fame, fortune and glory can all be yours!
